

WILCOX OIL: The Wilcox Oil Superfund site is former oil refinery located in Bristow, Creek County, Oklahoma. Environmental issues associated with the facility include a number of refinery waste source areas of concern including a backfilled oily waste pond, backfilled waste pits, and a number of tank bottoms. The results of samples collected observed releases to shallow ground water and indicated high concentrations of lead. A Special Notice Letter has been sent to 6 potentially responsible parties, Marathon Oil, BP Corporation, Atlantic Richfield, BNSF, Sunoco, and Sun Pipe Oil. **(Banipal, x7324)**
